

## Details of the payMe Pay Token (payMe)

PayMe Pay Token (payME) is a native utility token built on the Binance Smart Chain (BSC) network, which aims to bridge the world of Web2 and web3 and in this case transform the payMe Quiz Platform into a hybrid web application.

Besides, solving the problem of empowering learning exercises, the adoption of a blockchain Defi system provides more equity and inclusion for global netizens and creates transparency in the functionality of the system.

payMe token is a Decentralized Finance (DeFi) system adopted for the payMe Quiz Platform to incentivize outstanding quizzers in the gaming contests with the aim of making the shift from students' engagement in academic learning exercises to empowerment.

payME tokens are BEP-20 tokens running on Binance Smart Chain and have the following use cases:

**Quizzers' incentives:** Quizzers who exhibit exceptional intellectual supremacy will be rewarded with payME tokens.

We discovered that the decline of interest in education, is not a function of engagement but empowerment, thus payMe token is introduced to solve that problem.

**Game Entry-Fee:** Users of the payMe Quiz Platform will pay to participate in the test of knowledge competitions with payME tokens.

## The Ecosystem

The payMe Quizzing Platform utilizes the payME token to incentivize the users through learn-to-earn trivia contests with an ethical play-to-earn (P2E) functionality.

Since the P2E system requires financing, the platform is structured to sustain its rewarding system with a crowdfunding pay-to-play (P2P) system that accepts the payME token for entry to participate in a test of knowledge competition and use it to reward exceptional display of competency among contestants. This is aimed to keep the digital asset in demanding circulation while achieving the goal of the platform.

Token name	payMe Pay token (payMe)
Token Type	BEP-20
Maximum Supply	5,000,000,000
Private Sale Allocation	15.00%
Private Token Sale Date	Sep 6, 2022.
Public Presale	Oct 1, 2022
Public Sale Allocation	20.00%
Liquidity	100% of Initial Circulating Supply
Listing Date	Dec 1, 2022
Expected Initial Circulating Supply	3.5% of total supply

## Economics & Supply

The token supply distribution is as follows:

**Liquidity** comprises 3.5% of the total supply.

**Public Sale** comprises 20% of the total supply.

**Private Sale** comprises 15% of the total supply.

**The Project Team** comprises 10% of the total supply.

**Technical Developers** comprise 5% of the total supply.

**Business Development** comprises 15% of the total supply, including:

- **Operational Costs** comprise 5% of the total supply.
- **Partnership Incentives** comprise 7% of the total supply.
- **Bounty (Airdrops & Bonuses)** comprises 3% of the total supply.

**Community & Ecosystem** comprises 31.5% of the total supply.

## TOKEN DISTRIBUTION

- Liquidity 3.5%
- Public Sale 20%
- Private Sale 15%
- Project Team 10%
- Technical Developers 5%
- Business Development 15%
- Community & Ecosystem 31.5%

## Token governance

The previous maximum supply of 100 billion does not align with the strategic token economy of the payMe project and as a result, we heeded the advice from our blockchain advisor and community to redeploy to a new payMe token with a maximum supply of 5 billion.

The token distributions will be strategically released to control supply.

### Vesting

#### TEAM

1-year lockup. Daily vesting over 3 years.

#### TECHNICAL DEVELOPERS

6-month lockup. Daily vesting over 3 years.

#### LIQUIDITY

Unlocked at Token Generation Event (TGE).

#### PRIVATE SALE

20% of the allocation (1.5% of total supply) is unlocked at TGE. 6-month lockup, then 80% of allocation on daily vesting over 6 months.

#### PUBLIC ICO

20% of the allocation (2% of total supply) is unlocked at TGE. 1-month lockup, then 80% of allocation on daily vesting over 5 months.

## Use of funds

The project has two major revenue sources:

1. Revenue from token presale
2. Transactional Fee from the payMe Quizzing Contests

While the presale revenue realized will be used to carry out the following functions:

- [40%] Marketing.
- [25%] Legal and license.
- [20%] Strategic Partnership
- [8%] Government Income Tax.
- [7%] Mobile Application & Software.

The transactional fees will be used for the following functions:

- [20%] Team FTE costs
- [20%] Operational Costs
- [50%] Incentivizing Pool Funding
- [10%] Corporate Social Responsibility

The project funds are held in a multi-signature cold wallet.

### Use of Presale Revenue

- Marketing 40%
- Legal and licenses 25%
- Strategic Partnership 20%
- Government Income tax 8%
- Mobile Application Development 7%

### Use of Transactional Revenue
